

Luma Veil Skin Tint

Product specification and launch evidence dossier

Authoritative product record

Document owner: Product Operations | Record ID: LV-2026-004

Field	Approved value	Source status
Category	Complexion / SPF	Verified
Shade	Sunlit 04	Verified
Finish	Natural satin	Verified
Coverage	Light, buildable	Verified
Fragrance	Fragrance free	Verified

CONFLICT OPEN

Publication gate: BLOCKED

Marketing says SPF 50. Laboratory certificate confirms SPF 30.

Governance instruction

A human reviewer must select the claim supported by authoritative evidence and record a reason before any public product experience can be configured. Search results and marketing drafts may provide context, but they cannot overwrite the verified product record.

Meet your light.

Luma Veil Skin Tint - Sunlit 04

SPF 50

Everyday broad-spectrum protection

Draft claim for campaign review - substantiation status not yet checked

Campaign talking points

- Natural satin finish that stays skin-like
- Light, buildable coverage for flexible wear
- Fragrance-free formula
- Featured shade: Sunlit 04

MANDATORY REVIEW NOTE

Do not publish SPF 50 until the laboratory certificate supports the same value.

Sun protection test summary

Certificate LV-SPF-2026-118

Sample: Luma Veil Skin Tint / Sunlit 04 | Batch: DEMO-2608

Test	Measured result	Assessment
Static SPF	30.4	Supports SPF 30
UVA protection	Pass	Meets internal threshold
Sample integrity	Pass	Accepted for analysis

VERIFIED PUBLIC CLAIM: SPF 30

The measured result does not substantiate the SPF 50 marketing draft.
Route the conflict to a human reviewer before publication.

Authorized interpretation

Use SPF 30 in the governed product record. Any higher public claim requires separate supporting evidence and a new review decision. This certificate is intentionally synthetic and exists only to test traceable extraction, contradiction handling, and human approval workflows.
